

Polywrapping

Wednesday, 14 February 2007

Last Updated Monday, 26 February 2007

RnB's polythene wrapping facility is used by a number of organisations who mail their company brochures to members of their customer database. We save people hundreds of pounds regularly on this type of mailing.

Polywrapping is a cheap and cost effective way of mailing your company catalogues, brochures or other literature to your customers and prospects.

RnB regularly obtain postal discounts on mailings over 1000 records and on international mailings to multiple countries.
